RE: Recommendation and Thanks

Dear Saul and Natalia,

We have adjusted to the time change and have recovered from our big flight home.

His Highness, family, entourage and crew would like to express how much we enjoyed the catering we received for our flight. So many great comments were made during the flight saying the food quality was excellent. They thought the catering was from the Fairmont. The quality and the presentation were both exceptional.

It is not always easy to work with our group as there are so many details that have to be acknowledged and there can be so many changes, many at the last minute. Your flexibility to adjust to these demands makes our job so much easier.

There are not many companies that can handle such an order but you were able to complete and comply with ease and great professionalism.

We look forward to working with you again should the need arise and we can all give our full recommendations to anyone who will be in the Montreal area.

Kindest regards.

Deborah Corinne Kuta
