SKY CUISINE

catering deluxe

SKY CUISINE offers a rich variety of exquisite meals to satisfy the wishes of your Customers.

Thanks to a selection of carefully chosen suppliers we offer an extensive range of option meals ranging from local / international cuisine until dietary meals as for example gluten free, vegan or vegetarian.

All meals are prepared fresh. The ingredients are selected and cooked according to the Food Safety Policy and HACCP principles to grant their safety. Periodical controls are performed by our Security Department and by external qualified auditors on hygiene and food quality to ensure high level standards.

A direct contact with the production staff allows to carefully monitor every step of the process from the assembly, the mise-en-place, the transportation and finally the delivery on board. The presence of our SKY CUISINE staff on the apron enables to intervene quickly in case of any last-minute additional request.

For the delivery on board SKY CUISINE has been certified by ENAC.

Sky Services has further chosen to personalize SKY CUISINE by presenting all meals using a dedicated packaging line that includes resistant boxes that adhere to the rigors of keeping items fresh and safe but that can also meet your expectations of an elegant presentation.

Catering is not the only service we provide: value-added services like flower arrangements, laundry, linen, dish washing, international magazines and newspapers are also available on request.
